*What would you do if the fictional “Handmaid’s Tale” became your reality and women lost their rights?*

**RIGHT NOW**, state-by-state, women's rights are steadily being chipped away:

- Since Roe v. Wade (1973), there have been 1142 abortion restrictions added by states.
- As of 2017, seven states had only one facility providing abortions: Kentucky, Mississippi, West Virginia, Missouri, Wyoming, South Dakota, & North Dakota
- In 2018, nearly 90% of counties in the U.S do not have a clinic providing abortions.

Our protections stand to be further decimated with abortion being criminalized by Alabama, Georgia, Ohio, Missouri, Mississippi, Kentucky, Arkansas & Utah, with more to follow.

In other words, Roe vs Wade is in real danger of being overturned.

Gilead, here we come.

We CANNOT go back to the days of coat hangers and back-alley abortions.
